For 2012, there will be no change in the Plan's dental benefits. You will continue to receive the same dental benefits you currently enjoy. However, SAMBA has enhanced the vision benefits portion of the plan by adding the EyeMed Vision Care network. When you use EyeMed Vision Care providers, you will save money on routine eye exams and other eye care needs. Please see the enclosed flyer for more details about EyeMed Vision Care services. EyeMed ID cards will be issued to all Plan members – watch your mail!
