

## Your Rights and Protections Against Surprise Medical Bills

When you get emergency care, use an out-of-network air ambulance service, or get treated by an out-of-network provider at an in-network hospital or ambulatory surgical center, you are protected from surprise billing or balance billing.

### **What is “balance billing” (sometimes called “surprise billing”)?**

When you see a doctor or other health care provider or use an air ambulance service, you may owe certain out-of-pocket costs, such as a copayment, coinsurance, and/or a deductible. You may have other costs or have to pay the entire bill if you see a provider or visit a health care facility that isn't in our network. See Sections 1 and 3 of the 2022 SAMBA Brochure.

“Out-of-network” describes providers and facilities that haven't signed a contract with this plan. Out-of-network providers may be permitted to bill you for the difference between what we agreed to pay and the full amount charged for a service. This is called “**balance billing.**” This amount is likely more than in-network costs for the same service and might not count toward your annual out-of-pocket limit. See Section 4 of the 2022 SAMBA Brochure

“Surprise billing” is an unexpected balance bill as defined by a new federal law called the No Surprises Act. This can happen when you can't control who is involved in your care—like when you have an emergency or when you schedule a visit at an in-network facility but are unexpectedly treated by an out-of-network provider.

### **The No Surprises Act protects you from surprise balance billing for:**

#### **Emergency services**

If you have an emergency medical condition and get emergency services from an out-of-network provider or facility, the most the provider or facility may bill you is your plan's in-network cost-sharing amount (such as copayments and coinsurance). We will pay the out-of-network provider the amount we owe under the No Surprises Act.

You **can't** be balance billed for these emergency services. This includes services you may get after you're in stable condition, unless you give written consent and give up your protections not to be balance billed for these post-stabilization services.

#### **Certain services at an in-network hospital or ambulatory surgical center**

When you get covered services from an in-network hospital or ambulatory surgical center, certain providers there may be out-of-network. In these cases, the most those providers may bill you is your plan's in-network cost-sharing amount. This applies to emergency medicine, anesthesia, pathology, radiology, laboratory, neonatology, assistant surgeon, hospitalist, or intensivist services. We will pay out-of-network provider the amount we owe under the No Surprises Act

*The contents of this document do not have the force and effect of law and are not meant to bind the public in any way, unless specifically incorporated into a contract. This document is intended only to provide clarity to the public regarding existing requirements under the law.*

These providers **can't** balance bill you and may **not** ask you to give up your protections not to be balance billed.

If you get other services at these in-network facilities, for example from the primary surgeon or oncologist, out-of-network providers **can't** balance bill you, unless you give written consent and give up your protections.

### **Out-of-Network Air Ambulance Services**

When you get covered services from an out-of-network air ambulance services (rotor or fixed wing), We will pay the out-of-network provider the amount we owe under the No Surprises Act.

These providers **can't** balance bill you and may not **ask** you to give up your protections not to be balance billed.

**You're never required to give up your protections from balance billing under the No Surprises Act. You also aren't required to get care out-of-network. You can choose a provider or facility in this plan's network.** See Section 4 of the SAMBA brochure.

### **When balance billing isn't allowed, you also have the following protections:**

- You are only responsible for paying your share of the cost (like the copayments, coinsurance, and deductibles that you would pay if the provider or facility was in-network). Your plan will pay out-of-network providers and facilities directly.
- We generally must:
  - Cover emergency services without requiring you to get approval for services in advance (prior authorization).
  - Cover emergency services by out-of-network providers.
  - Base what you owe the provider or facility (cost-sharing) on what it would pay an in-network provider or facility and show that amount in your explanation of benefits.
  - Count any amount you pay for emergency services or out-of-network services toward your deductible and out-of-pocket limit.

**If you believe you've been wrongly billed**, you may contact the federal government's No Surprises Helpdesk at 1-800-985-3059 (the line will be staffed beginning January 1, 2022).
