Note: The official Health Plan Ratings (HPR) scores will be released by NCQA in September 2025 using current year (2025 or MY 2024) benchmarks. The results presented in this report use the 2024 (MY 2023) benchmarks released by NCQA to estimate the MY 2024 HPR; therefore the HPR scores presented in this report should be treated as estimates. Results are presented for NCQA's top-box rates (% 9+10 or % Usually+Always). At least 100 valid responses must be collected for a measure to be reportable by NCQA. A lighter display is used to indicate that a result is not reportable by NCQA due to insufficient denominator (fewer than 100 responses). In such cases, CSS calculates measure results only for internal plan reporting.
